(a) Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – *Interim Financial Reporting (“IAS 34”)* of the International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”). These condensed consolidated interim financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended March 31, 2017. These condensed consolidated interim financial statements follow the same significant accounting policies set out in note 2 to the audited consolidated financial statements for the year ended March 31, 2017 except for narrow scope amendments to IAS 7 – *Statement of Cashflows* and IAS 12 – *Income Taxes* which were effective in the current year. These amendments had no material impact on the Company’s financial statements.

These condensed consolidated interim financial statements were authorized for issue in accordance with a resolution of the Board of Directors dated on August 2, 2017.

(b) Basis of Consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly or partially owned subsidiaries.

Subsidiaries are consolidated from the date on which the Company obtains control up to the date of the disposition of control. Control is achieved when the Company has power over the subsidiary, is exposed or has rights to variable returns from its involvement with the subsidiary; and has the ability to use its power to affect its returns.

For non-wholly-owned subsidiaries over which the Company has control, the net assets attributable to outside equity shareholders are presented as “non-controlling interests” in the equity section of the consolidated balance sheets. Net income for the period that is attributable to the non-controlling interests is calculated based on the ownership of the non-controlling interest shareholders in the

subsidiary. Adjustments to recognize the non-controlling interests' share of changes to the subsidiary's equity are made even if this results in the non-controlling interests having a deficit balance. Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are recorded as equity transactions. The carrying amount of non-controlling interests is adjusted to reflect the change in the non-controlling interests' relative interests in the subsidiary and the difference between the adjustment to the carrying amount of non-controlling interest and the Company's share of proceeds received and/or consideration paid is recognized directly in equity and attributed to equity holders of the Company.

Balances, transactions, revenues and expenses between the Company and its subsidiaries are eliminated on consolidation.

Details of the Company's significant subsidiaries which are consolidated are as follows:

15. FINANCIAL INSTRUMENTS

The Company manages its exposure to financial risks, including liquidity risk, foreign exchange risk, interest rate risk, credit risk and equity price risk in accordance with its risk management framework. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis.

(a) Fair value

The Company classifies its fair value measurements within a fair value hierarchy, which reflects the significance of the inputs used in making the measurements as defined in IFRS 13, Fair Value Measurement ("IFRS 13").

Level 1 – Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs which are supported by little or no market activity.

Notes to Condensed Consolidated Interim Financial Statements as at June 30, 2017 and for three months ended June 30, 2017 and 2016

(Unaudited)(Expressed in thousands of U.S. dollars, unless otherwise stated)

The following tables set forth the Company's financial assets and liabilities that are measured at fair value level on a recurring basis within the fair value hierarchy at June 30, 2017 and March 31, 2017 that are not otherwise disclosed. As required by IFRS 13, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Recurring measurements	Fair value as at June 30, 2017			
	Level 1	Level 2	Level 3	Total
Financial assets				
Cash and cash equivalents	\$ 74,300	\$ -	\$ -	\$ 74,300

Financial assets				
Cash and cash equivalents	\$ 73,003	\$ -	\$ -	\$ 73,003
Investments in publicly traded companies	1,207	-	-	1,207

Fair value of the other financial instruments excluded from the table above approximates their carrying amount as of June 30, 2017 and March 31, 2017, respectively, due to the short-term nature of these instruments.

There were no transfers into or out of level 3 during the three months ended June 30, 2017 and 2016.

(a) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its short-term business requirements. The Company has in place a planning and budgeting process to help determine the funds required to support the Company's normal operating requirements on an ongoing basis and its expansion plans.

In the normal course of business, the Company enters into contracts that give rise to commitments for future minimum payments. The following summarizes the remaining contractual maturities of the Company's financial liabilities.

	June 30, 2017			March 31, 2017	
	Within a year	2-3 years	4-5 years	Total	Total
Accounts payable and accrued liabilities	\$ 26,383	\$ -	\$ -	\$ 26,383	\$ 30,374

(b) Foreign exchange risk

The Company reports its financial statements in US dollars. The functional currency of the head office, Canadian subsidiaries and all intermediate holding companies is CAD and the functional currency of all Chinese subsidiaries is RMB. The Company is exposed to foreign exchange risk when the Company undertakes transactions and holds assets and liabilities in currencies other than its functional currencies.

SILVERCORP METALS INC.

Notes to Condensed Consolidated Interim Financial Statements as at June 30, 2017 and for three months ended June 30, 2017 and 2016

(Unaudited)(Expressed in thousands of U.S. dollars, unless otherwise stated)

The Company currently does not engage in foreign exchange currency hedging. The Company's exposure to currency risk affect net income is summarized as follow:

	June 30, 2017	March 31, 2017
Financial assets denominated in U.S. Dollars	\$ 48,279	\$ 29,093
Financial assets denominated in Chinese RMB	\$ 1	\$ 7,115

As at June 30, 2017, with other variables unchanged, a 10% strengthening (weakening) of the CAD against the USD would have decreased (increased) net income by approximately \$4.8 million.

(c) Interest rate risk

The Company is exposed to interest rate risk on its cash equivalents and short term investments. As at June 30, 2017, all of its interest-bearing cash equivalents and short term investments earn interest at market rates that are fixed to maturity or at variable interest rate with terms of less than one year. The Company monitors its exposure to changes in interest rates on cash equivalents and short term investments. Due to the short term nature of the financial instruments, fluctuations in interest rates would not have a significant impact on the Company's after-tax net income.

(d) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk primarily associated to accounts receivable, due from related parties, cash and cash equivalents and short term investments. The carrying amount of assets included on the balance sheet represents the maximum credit exposure.

The Company undertakes credit evaluations on counterparties as necessary, requests deposits from customers prior to delivery, and has monitoring processes intended to mitigate credit risks. The Company has trade receivables from time to time from its major customers primarily in China engaged in the mining and milling of base and polymetallic metals. The historical level of customer default is zero and aging of trade receivables are no more than 180 days, and, as a result, the credit risk associated with trade receivables from customers as at June 30, 2017 is considered to be immaterial. There were no amounts in receivables which were past due at June 30, 2017 (at March 31, 2017 - \$nil) for which no provision is recognized.

(e) Equity price risk

The Company holds certain marketable securities that will fluctuate in value as a result of trading on Canadian financial markets. As the Company's marketable securities holding are mainly in mining companies, the value will also fluctuate based on commodity prices. Based upon the Company's portfolio at June 30, 2017, a 10% increase (decrease) in the market price of the securities held, ignoring any foreign currency effects would have resulted in an increase (decrease) to comprehensive income of approximately \$0.55 million.

Due to the size, complexity and nature of the Company's operations, the Company is subject to various claims, legal and tax matters arising in the ordinary course of business. Each of these matters is subject to various uncertainties and it is possible that some of these matters may be resolved unfavorably to the Company. The Company accrues for such items when a liability is both probable and the amount can be reasonably estimated.

In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company and its legal counsel evaluate the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought. Major legal proceedings against the Company are summarized as follows:

- On August 19, 2014, an action was commenced against the Company in the Supreme Court of British Columbia seeking an unspecified amount of damages for a claim of false imprisonment and defamation (the "Huang Action"). The Company believes that there is no merit to the allegations and intends to pursue a vigorous defence.
- During the year ended March 31, 2016, an action was initiated by Luoyang Mining Group Co., Ltd. ("Luoyang Mining") against Henan Found seeking payment of \$1.6 million (RMB10.0 million) plus interest related to the acquisition agreements Henan Found entered into in August 2012 to acquire the XHP Mine. The \$1.6 million has been included into the accounts payable and accrued liabilities on the consolidated statements of financial position of the Company. Henan Found did not make the final payment as certain commercial conditions were not fulfilled by Luoyang Mining. In April 2016, Henan Found filed a counter claim in Luoyang People's Court against Luoyang Mining to have the original acquisition agreements nullified and is seeking repayment of the amount paid to date of \$9.7 million (RMB62.8 million) plus compensation of direct loss of \$2.5 million (RMB16.5 million) arising from XHP mine. A trial was heard in March 2017 but a court decision has not yet been made. The carrying value of XHP mine was impaired to \$nil in fiscal year 2015.
- During the year ended March 31, 2016, SX Gold, a 100% owned subsidiary of Henan Found, commenced a legal action against Luoyang HA Mining Co. Ltd. ("HA Mining") to seek payment of \$4.0 million (RMB26.0 million) plus interest related to a share transfer agreement that SX Gold entered into with HA Mining in September 2013. Pursuant to the agreement, SX Gold was to transfer all shares it held in Songxian Zhongxin Mining Co. Ltd. to HA Mining for \$11.8 million (RMB76.0 million). SX Gold fulfilled its responsibilities and the title of the shares was transferred to HA Mining, who paid \$7.8 million (RMB50.0 million). The remaining \$4.0 million (RMB26.0 million) was not paid. In April 2016, HA Mining filed a counter claim for \$2.2 million (RMB14.0 million). On June 17, 2016, the court issued an order in favor of SX Gold. The court order demands HA Mining to pay \$3.4 million (RMB22.75 million) to SX Gold. On July 1, 2016, HA Mining filed an appeal to the court order. This case is currently under appeal. A trial was heard in April 2017 but a court decision has not yet been made. The outstanding receivable amount of \$4.0 million (RMB26.0 million) was written off in prior years.
